

Iron On Patch Instructions

1. Your garment should be clean and freshly laundered (inc new items).
2. Set iron to "COTTON" for five minutes.
3. Thoroughly iron area of garment where patch will be placed.
4. Place patch on garment, embroidery facing up.
5. Place cloth or light towel over patch and using a slow circular motion, press firmly for 30 seconds.
6. Turn garment inside out, and iron the back of the patch for a further 30 seconds.
7. Let cool for one minute. If edge of patch can be lifted, repeat step 6.

Permanence of application is only guaranteed by sewing.

Do NOT use on non-ironable fabrics (low melting point) such as nylons, vinyls, or leathers.

Do NOT bleach.

Unless marked otherwise, you can either sew on or iron on all patches that we sell.
